Belly Band Size Chart

Belly Band Size	What was your pre-pregnancy size?		Top Circumference (Top of Belly)		Bottom Circumference (Lower Waist)	
	US	EU				
S	0-2	32-34	24 - 30"	61 - 76 cm	28 - 34"	71 - 86 cm
M	4-8	36-40	28 - 34"	71 - 86 cm	32 - 38"	81 - 96 cm
L	10-16	42-46	32 - 38"	81 - 96 cm	36 - 42"	91 - 106 cm
XL	18-24	48+	36 - 44"	91 - 112 cm	40 - 48"	102 - 122 cm

BETWEEN NUMBERS? We strongly recommend to choose a size up within the recommended range. We understand that every pregnancy is different, especially if the mom is carrying multiples. Please contact us at support@bellyarmor.com if you have any questions and we'll be happy to assist you.

* Shielding effectiveness for electromagnetic radiation in the range of 10MHz and 8GHz. Does NOT shield against ionizing / high-frequency radiation (like X-rays). Belly Armor products go through both internal and external independent testing in FCC-certified and NVLAP-accredited laboratories. These tests are available on the website.

** The bands are designed to protect the fetus, and considers that practically all of the radiation reaching the fetus does so from the front and to a lesser extent from the sides and back of the body. Significantly less wireless/microwave radiation is able to penetrate the 2-4 inches of muscle, fat, and bone between a mother's back and the fetus.
