The Saffbaby.com MACT Award (Mommy Approved Child Tested)

The most innovative dental product added to the marketplace since toothpaste was invented! This patented formula and technology is revolutionizing the way kids brush their teeth. Instead of conventional toothpaste, children take 1 tablet, **chew, brush** and **rinse** without the mess of toothpaste.

■ Effective, easy & encourages kids to brush every day!

The active ingredients, **cranberry extract** and **xylitol**, have proven plaque reducing abilities and are exceptionally effective at preventing tooth decay. Chewing a great tasting tablet is easy and encourages kids to develop good oral hygiene. The very nature of chewing assures parents that the pits and fissures in the chewing surfaces of teeth are reached where cavities may start.
