Highlights

Effortless body grooming

Conveniently shave and trim below the neck. Easily switch between shaving and trimming, and adjust trim lengths without changing attachments. Designed as a safe and comfortable grooming solution for back, shoulders, chest, abs, underarms, arms, groin area and legs.

4-directional pivoting head

The four-directional pivoting shaver adapts to the contours of your body for a smooth, close and comfortable shave.

Integrated, adjustable trimmer

Lock in 5 trim lengths ranging from 1/8"(3mm) to 7/16"(11mm). The adjustable trimmer includes a guard, and features self-sharpening steel blades.

Skin-friendly body shaver

Blades have rounded tips for smooth skin contact. Designed to prevent nicks and cuts, the innovative shaver head captures long, short and thick hairs in a single stroke.

Advanced lithium-ion battery

Advanced lithium-ion battery delivers maximum power for high performance cutting. Longer lasting run-time than any other rechargeable battery. Up to 80 minute run time. Fully charges in 1 hour. The battery light indicates power status, when the battery is low or full. Now with a direct charge- no charging stand needed!

Showerproof

Provides a comfortable and close result in or out of the shower. The body groomer is fully water-resistant, so you can simply rinse it clean when you've finished. Trimming performance may be better on dry hair, as wet hair tends to stick to the body.

Ergonomic grip

The rubber grip is designed to ensure optimal handling and better control during use, while wet or dry.

Built to last

All of our grooming products are built to last. They come with worldwide voltage compatibility, and they never need to be oiled.
